DIALING INSTRUCTIONS

1. LIFT THE RECEIVER AND LISTEN FOR DIAL TONE—a steady "hum-m-ming" sound.
 2. DIAL THE FIRST TWO LETTERS THEN THE FIVE FIGURES IN THE NUMBER.
 3. WHEN DIALING PULL DIAL AROUND UNTIL FINGER STRIKES THE FINGER STOP. Remove finger and allow dial to return without interference. DO NOT MISTAKE THE LETTER "O" FOR THE FIGURE "0" NOR THE LETTER "I" FOR THE FIGURE "1."
- THE RINGING SIGNAL (an intermittent "burr-ing" sound) OR THE BUSY SIGNAL (a steady "buzz-buzz-buzz") should be heard soon after the dialing is completed. If you do not hear either sound, hang up, and after a reasonable wait, try the call again.

FRONT COVER — In its block-square setting of lush grass, flowering shrubs and shady trees, the Taylor City Hall symbolizes the fertile blacklands and the progressive, hard-working people who call Taylor home. The building is as practical as a farm tractor to serve the needs of Taylor's 11,000 citizens. It was built in the Depression days of 1935, when C. O. Dallet was mayor, to replace an outmoded structure. The men and women who staff the Hall handle city affairs under a 1914 charter, Taylor being one of the first cities in the Southwest to adopt the city manager-commission form of government.

FACTS ABOUT LONG DISTANCE SERVICE

To assist you in choosing the service to use

STATION-TO-STATION CALLS

The rates are lower on these

On the lower-priced station-to-station calls, you talk to anyone who answers at the number called. To make a station-to-station call:

Dial "Operator" and give her the name of the town to which you want to talk, and the telephone number, if you know it. For example, say "San Antonio, Texas, Walnut 2-4568" or "San Antonio, Texas, Mr. John Smith's residence at 1500 Broadway."

Be sure **not** to specify any particular person, or the number or location of any Private Branch Exchange station (such as Room 711, Grand Hotel, or Shipping Department). Such calls take the higher person-to-person rate.

Facts About Station-to-Station Calls:

1. Rates are lower than on person-to-person calls except on collect calls to near by points. A small additional charge is made on these calls when placed collect.
2. They are usually more quickly completed than person-to-person calls.
3. The initial period of conversation without additional charge is three minutes.
4. The call is timed from the moment the called telephone is answered.
5. See rate table on inside front cover of this directory.

COLLECT CALLS . . .

You may "reverse" charges; that is, have them billed to the called telephone. Simply tell the operator you want to place the call "collect." If the called party agrees to pay the cost, charges will be billed to his telephone.

PERSON-TO-PERSON CALLS

You talk to a particular person

On the higher rate person-to-person calls, you talk to a particular person or a particular extension, such as "Mr. John Jones, Grand Hotel" or "Room 711, Grand Hotel." This service assures your getting the person or telephone you want. To make a person-to-person call:

Dial "Operator" and give her the town, the telephone number or address, and the name of the person or department you want. For example, say "San Antonio, Texas, Walnut 2-4568, Mr. John Smith" or "San Antonio, Texas, Walnut 2-4568, Extension 711."

Facts About Person-to-Person Calls:

1. Charges do not begin until you start talking with the exact person or extension telephone with whom you wish to speak.
2. All initial periods are for three minutes.
3. Repeated attempts will be made to reach the person with whom you want to talk. No additional charge is made for this service.

FOR FASTER SERVICE . . . CALL BY NUMBER . . .

If you know the number of the distant telephone, give it to the "Operator." It will speed your calls.

Ask your telephone business office for a free long distance number booklet. You will find it convenient to jot down your out-of-town numbers.

RECORDING OF TELEPHONE CALLS

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the telephone company for your protection. Use of a recorder without this signal is unlawful. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

MOBILE TELEPHONE SERVICE

It gives you two-way voice communication, either local or long-distance, between any regular telephone and any mobile telephone, and between mobile telephones themselves.

Private mobile telephone service is provided for firms who need continuous contact with their own service-men, delivery trucks, salesmen, etc., but do not require connection with the general telephone system.

All equipment is furnished, installed and maintained by your telephone company.

Faster *Long Distance Service*

— when you call by number

Your long distance calls go through faster—often twice as fast—when you give the operator the number you're calling. That's why it pays to keep a list of out-of-town telephone numbers.

Of course, if you're calling "long distance" and don't know the number, the operator will be glad to get it from the Information Operator in the city you're calling. Then she'll repeat it so you can jot it down for use the next time you call.

WHEN a new directory is delivered, this one should be discarded. Therefore, the numbers you write down on this page will be lost. For a permanent and more convenient record, ask your telephone business office for a FREE long distance numbers booklet — and use it to jot down your out-of-town numbers.
