how to make calls

PLACING CALLS WITH OPERATOR

When you place your Long Distance calls with the operator, give her the Area Code and the telephone number.

If you do not know the Area Code, give the name of the town and state.

If you do not know the telephone number, ask the operator for information in the city you are calling. She will connect you at no additional charge. When you have secured the number, hang up. Reach the operator again and place your call.

Give your own complete telephone number when the operator asks for it. Giving it to her before she is ready to receive it may delay the handling of your call.

LONG DISTANCE RATES from TAYLOR

These typical rates are for the first 3 minutes and do not include the Federal Excise Tax. EMERGENCY CALLS On Party Lines

WARNING:

The law of the state of Texas provides that any person who shall willfully refuse to immediately relinquish a party line when informed that such a line is needed for an emergency call to a fire department or police department or for medical aid or ambulance service, or any person who shall secure the use of a party line by falsely stating that such a line is needed for an emergency call, shall be guilty of a misdemeanor. The law defines an "emergency" as a "situation in which property or human life are in jeopardy and the prompt summoning of aid is essential."

FRONT COVER — In its block-square setting of lush grass, flowering shrubs and shady trees, the Taylor City Hall symbolizes the fertile blacklands and the progressive, hard-working people who call Taylor home. The building is as practical as a farm tractor to serve the needs of Taylor's 11,000 citizens. It was built in the Depression days of 1935, when C. O. Daliet was mayor, to replace an outmoded structure. The men and women who staff the Hall handle city affairs under a 1914 charter, Taylor being one of the first cities in the Southwest to adopt the city manager-commission form of government.

DIALING A LOCAL CALL

1

LOOK UP and
UNDERLINE the number.

2

HEAR the **DIAL TONE**
before you dial.

3

DIAL the **TWO LETTERS**
and then the
FIVE NUMERALS

Be careful not to confuse the
numeral "0" (zero)
with the letter "O".

4

AFTER DIALING
you will hear—

The Ringing Signal

A soft "burr-r-ring" sound repeated at regular intervals means that the telephone you dialed is ringing. Give your party time to answer, about 10 rings, before you hang up.

The Busy Signal

A steady "buzz-buzz-buzz" sound means the called line is in use. Hang up and call again later.

FOR NUMBERS NOT LISTED IN THIS DIRECTORY

If you cannot find the number in this directory or in your personal list of telephone numbers, dial 113 for Information. When the Information Operator answers, first give her the name of the city or locality you are calling. Then give her the name and address of the party whose number you want. By first specifying the city or locality, you will insure faster service.

CALLING ANOTHER PARTY ON YOUR LINE

Dial Operator and ask for instructions.

IF YOU HAVE DIFFICULTY IN DIALING
or need assistance — **DIAL "OPERATOR"**

A Helpful Hint

It's always a good idea to keep a handy list or notebook of telephone numbers that you and your family frequently call. Keep it right by the phone. You'll find it's a great timesaver.

TELEPHONE NUMBERING PLAN MAP

The United States and Canada are divided into over 100 "Dialing Areas." Each area has a 3-digit "Area Code" assigned to it. When you place a long distance call, the operator dials the appropriate 3-digit code, then the telephone number you want. In making an out-of-town call, give the operator the Area Code and the Telephone Number you are calling. Your call will go through faster.

Automatic ANSWERING SET

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available to answer and then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory. Some of these sets will also receive and record a message from the caller.

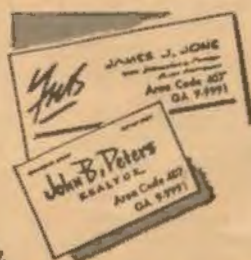

When You Hear A "BEEP" TONE

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

TARIFFS

Tariffs which show rates, rules and regulations for telephone service and facilities are available in our Business Offices for public inspection.

Your TELEPHONE NUMBER Is Important

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your Area Code, too—it helps distant parties call you faster.

ATTACHMENTS To Telephones

In the interest of good service, you should not use unauthorized equipment, attachments, devices and gadgets in conjunction with the company's telephone instrument and associated equipment. They interfere with telephone service, and the Telephone Company, in order to maintain good telephone service, reserves the right to remove any such equipment, devices or gadgets which are attached or used in violation of its established tariff rules and regulations.

Save one-third Call station-to-station

Take full advantage of bargain Long Distance rates by calling station-to-station (a call to a distant number rather than a particular person).

Station-to-station rates are about one-third less than person-to-person rates. Let you talk longer for less, call out-of-town friends and relatives more often.

Isn't there someone, somewhere, you'd like to call?

*Plan for Built-in
Telephone
Service*

When your new home or office is being built, plan for built-in telephone service. Built-in telephone wiring by means of conduit arrangements costs little. And, it gives you completely hidden connections. No unsightly wires on the walls and you can have a telephone outlet in every room.

Just call the telephone business office and ask for "Telephone Planning Service." There's no charge for this service.

FILLS THE BILL FOR EASY SHOPPING

WHEN IS SHOPPING EASY? When you know where to buy what you're looking for. The Yellow Pages of your telephone directory "fill the bill" for easy shopping—they give the name, address, and telephone number of the store or person who sells any product or service available in your town.

TURN THROUGH THE YELLOW PAGES of this directory. You'll see products and services listed in alphabetical order under bold-type headings. Then under each heading you'll find the firms that sell, rent, or repair that item. Some stores have ads that give information on brands they carry, store hours, deliveries, and special services.

YES, THE YELLOW PAGES ARE EASY TO USE—a big saver of time, money, and effort. Make the most of them. When in doubt about "where to buy it," always look first in the Yellow Pages.

Speakerphone

A special microphone and small loudspeaker associated with this telephone enable you to carry on a conversation without lifting the receiver. The sensitive microphone picks up your voice from several feet away and frees both hands while talking. It can also be used as a regular telephone.
