Notice:

Automatic Number Identification... When a 700, 800, 888 or 900 number is dialed from your telephone, your telephone number may be transmitted to the company you have called and may be available to that company's representative before your call is answered.

Cellular 9-1-1 Calls... When calling 9-1-1 on a cellular phone, be prepared to provide the following information: your name, cellular phone number, nature of the emergency, and the location of the incident. Please note: your call may be answered by a telephone company operator or a 9-1-1 dispatcher outside of your area.

Privacy Considerations... The 9-1-1 (nine-one-one) emergency telephone number has been developed to quickly summon emergency service in a crisis situation. Callers should realize that when reporting an emergency by dialing 9-1-1, their telephone number (including non-published numbers) and their address may be automatically displayed on a viewing screen located at the 9-1-1 answering centers and that this call may also be recorded. This display of the calling number and address enables the emergency agency to quickly locate the caller even if the call is disrupted by the crisis.

Callers who do not wish to have their telephone number or address displayed on the viewing screen should report an emergency by dialing the seven-digit telephone number of the appropriate emergency agency. For blocking options, see the Caller ID section of this directory's Call Guide pages.

Hutto Customers should refer to their listing section for emergency numbers, service calls and dialing instructions.

Social Services Referral Helpline

Southwestern Bell, in partnership with the Texas Information and Referral Project, is making it easier for you to find the assistance you need or to volunteer to help in your community.

A Social Services Referral Helpline has been selected by people in your community for having the best listing of phone numbers about public and private resources such as food pantries, support groups, and shelter.

The Helpline is answered by information and referral (I&R) specialists whose job is to help "stop the run around" by knowing the best number to call for each person's unique circumstance.

The Social Services Referral Helpline may know of resources you didn't realize could be available. Look for it in the Important Numbers section and give them a call.

Hotline Numbers for Community Services

Local Service Alternatives

Selecting Your Local Telephone Company

Historically, local telephone service was provided by only one company in a specific geographic area. The Public Utility Regulatory Act of 1995, effective September 1, 1995, now allows companies to apply to the Public Utility Commission of Texas for certification to provide local telephone service. Upon certification by the Commission, these companies are allowed to provide such service within the same geographic area as existing telephone companies, such as Southwestern Bell.

You now have a choice of local telephone service providers. Detailed information about the availability of local service from companies other than Southwestern Bell may be obtained directly from these companies. At the time this directory was published, the following company in addition to Southwestern Bell, had applied to offer local service in the Taylor area.

Voice Dial

Voice Dial automatically dials the number you're calling by saying a name or location into the phone.

Voice Dial is available in either a 30 or 50 entry directory for residence customers and 30, 50, or 75 entry directory for business customers.

NOTE: Voice Dial should not be considered a substitute for 911 or other emergency phone numbers, in stressed situations, changes in voice modulation could prevent completion of Voice Dial calls.

Because dial tone is shortened with Voice Dial, services that depend on dial tone, such as fax machines or modems, may be affected. Voice Dial may also affect answering machines, message services, satellite services, and security systems that rely on dial tone or trigger an off-hook condition.

When you pick up the phone, you'll first hear dial tone followed by a short beep. The beep indicates Voice Dial is ready to accept your voice command. Or, you may dial manually at any time.

To use Voice Dial:

1. You'll first need to establish your Voice Dial directory. To do so, pick up the phone, listen for dial tone followed by a beep, then press *44.
2. To begin adding names to your directory, dial 1. Voice prompts will instruct you to say the name you wish to add. The prompts will guide you then to add the telephone number, which is entered just as you would if dialing manually. For example, be sure to include a "1" when entering a long distance number.

3. To delete a name from your directory, dial 2, then follow the prompts.

4. To review names in your directory, dial 3, then follow the prompts.

5. For other options such as Helpful Hints, Change Language, or Establishing a PIN, dial 9.

6. After you've created a Voice Dial directory, you are ready to make Voice Dial calls! Just pick up the phone, listen for dial tone followed by the beep, then say the name or phrase as you have recorded it in your directory. Your call will be dialed automatically.

Sending a Fax or Using a Modem:

You may need to delay the Voice Dial beep long enough for your fax/modem to detect dial tone. To do this, dial *45 (*touch-tone*) or 1145 (*rotary*) before your fax/modem call and hang up. You will have a longer dial tone when you pick up the phone the next time. This works on a per call basis, and will need to be repeated for each fax/modem call.

Caller ID Services

New EasyOptions® Services* Southwestern Bell is pleased to announce new EasyOptions services that are available in your area... Caller ID Services. These services include Calling Number Delivery, Calling Name Delivery, and Anonymous Call Rejection. Caller ID lets the Caller ID subscriber know who is calling even before picking up the phone. Caller ID is an optional service which allows you to see the date, time, and phone number (Calling Number Delivery) and/or name (Calling Name Delivery) of most direct-dialed local calls and some long-distance calls before you answer the telephone.

Calling Number Delivery And Calling Name Delivery

When you get a call, Caller ID shows the phone number and/or name of the caller on a special display unit. A display unit is required for Calling Number Delivery and Calling Name Delivery. The Caller ID display unit stores the number and name, as well as the date and time of the call. That way if you're not home, or just don't want to answer the phone, the stored numbers will permit you to return calls. This also works with answering machines or voice messaging systems... even if the caller doesn't leave a message. These units will be available from various retail vendors, including Southwestern Bell. Each time you make a phone call, your name and number will automatically be sent to all Caller ID subscribers in your area unless you choose to block that information.

*Caller ID is available now.

All services are not available in all areas.

Caller ID Services

Caller ID (continued)

"stutter" tone which tells you "per-call" blocking is working. Calls blocked on a per-call basis will be displayed on the Caller ID display unit as "anonymous" or "private." Per-call blocking is free of charge and automatically available on everyone's line wherever Caller ID is available. There is no need to subscribe to Caller ID to have per-call blocking.

It is important to keep in mind that even if you have a non-published or non-listed number your number will be passed unless you choose to block on a per-call or per-line basis. We believe per-call blocking will provide you with flexibility in those situations when you do not want to have your telephone number or name delivered to Caller ID subscribers.

However, if you have a compelling need for per-line blocking, meaning you want to always have your number and name blocked, you can

have per-line blocking at no charge by mailing a written request for per-line blocking which includes (1) your name, address and telephone number (as shown on your bill), (2) your signature, and (3) the following statement, "I have a compelling need for per-line blocking" to: Public Utility Commission of Texas, P O Box 10600 Austin, Texas 78766-9978.

You need not explain your compelling need because all requests are AUTOMATICALLY granted. ***Or, you may obtain per-line blocking by simply completing the reply card which will be sent to you before the service is offered and drop it in the mail.*** If at any time you want to cancel per-line blocking and reinstate per-call blocking, you need only call the Southwestern Bell Service Center. Per-line blocking automatically blocks a customer's name and number on every call without the need to press *67 or dial 1167. Calls placed

Caller ID (continued)

from a line that subscribes to "per-line" blocking will be displayed on the Caller ID display unit as "anonymous" or "private." Customers who subscribe to per-line blocking can unblock their name and/or number on a call-by-call basis. You can turn off per-line blocking on a specific call by dialing *82 or 1182 before dialing the phone number. This feature turns off per-line blocking for only the call placed after *82 or 1182 is dialed, and will result in your name and/or number being received by subscribers of Caller ID. Once the call is ended per-line blocking will be restored. If you select per-line blocking, then calls to ACR customers (see next page) will not be completed. If you must reach

that customer, you may do so by dialing *82 or 1182, calling from a pay phone or cellular phone, making a credit card or operator-assisted call or asking someone who does not have per-line blocking to place the call for you.

Currently there are some calls that Caller ID won't identify. These include cellular calls, some long-distance calls, operator-assisted calls, and calls originating in areas where Caller ID is not available. For these calls, the Caller ID display unit will display the message "out of area." Even though you won't have the number, you will still have information about the call, such as the date and time. Below are examples of what will likely be displayed, depending on the type of calls received.

Anonymous Call Rejection (ACR)*

Anonymous Call Rejection (ACR) is a Caller ID Service that allows a subscriber to automatically reject all calls that have been marked anonymous, or blocked. It is not necessary to subscribe to Calling Number Delivery or Calling Name Delivery to subscribe to ACR nor is a display unit necessary. With ACR, the telephone will not ring if the person calling you has "blocked" his/her name and number through per-call or per-line blocking. The person calling will receive a message that the party he/she is trying to reach is not accepting calls from a blocked number. The caller will be instructed to redial without blocking the number or be asked to call the operator for assistance in completing the call. (An operator-handling charge will apply.)

ACR service also allows you the flexibility to turn on or off your ACR service by dialing a code, which will be provided upon subscription to ACR.

It is important to remember that both per-call and per-line blocking will not block your billing telephone number to Emergency 9-1-1, nor will it currently prevent your number from being transmitted on 700, 800, or 900 calls. Also, calls made from a pay phone cannot be blocked.

About Your Bill

You can expect a bill from us about the same time each month. Your payments are required monthly and the due date is noted on your bill.

You'll be billed a basic monthly charge for service with a detailed description of itemized calls and other charges.

We also do billing for various long-distance companies. This consolidated billing means you will receive one convenient

monthly statement showing the charges for our services in addition to those of selected long-distance companies.

Your bill is separated into sections that describe the charges for each company. Each section includes the telephone number to call if you have a question about that company's portion of your bill. To help you get answers efficiently, be sure to call the appropriate telephone number listed on the page of your telephone bill that you have a question about.

Answers to Questions About Your Bill

Repair Service

We do everything possible to make sure your phone service remains the best. And we try just as hard to fix any problems that do occur as quickly as possible.

We make repairs to the phone lines outside your home or business at no

charge to you. Repairs you ask us to make from your network interface (gray box) to your inside phone lines will require an additional charge, unless you subscribe to our InLine Plus[®] or InLine[®] wire maintenance services. (See the "No-Worry" section on page 50) for more details.)

Before You Call Our Repair Service Center

Because some of our repair assistance requires a fee, we work with you to help determine the source of the problem, wherever possible.

Here are a few simple things to do before calling our Repair Service Center.

- Look for symptoms on your telephone set(s) like cracked plastic housing, a broken or frayed cord, or lights that don't work.

- If you have just one phone, unplug it and plug in a borrowed phone. If the borrowed one works, the problem is in your telephone set and not the telephone line. (See the "Ins and Outs" section on page 50 for what to do next.)

- If you have more than one phone make sure each phone's receiver is on the hook. If none are off the hook, unplug every phone. Then start by plugging each phone back into any wall jack one at a time, checking each phone for a dial tone as you go. The telephone set that causes the line to go dead is the one needing repair. (See the "Ins and Outs" section on page 50 for what to do next.)

- If your phone or phones appear to be working, take a working phone to your Telephone Network Interface box. (See drawing on page 50). This box is located on the outside wall of your home or business, usually near the electric meter. (It is where our outside lines and your inside telephone wiring connect, or interface.)

Repair Service (continued)

If You Need To Call Our Repair Service Center

Please be prepared with answers to these questions when you call:

1. What is the telephone number you're reporting trouble on?
2. Does the problem occur on all your phones? (See "Before You Call" section on previous page.)
3. Do you have a dial tone?
4. Is noise the problem on the line?
5. Can you call out?
6. Can you receive calls?
7. How often does the problem occur?
8. Is the problem on local and/or long-distance calls?

Open the Network Interface box and locate the "test jack" inside (see next page for details). Remove the modular plug from the test jack and insert the phone jack from your phone.

If the same problem occurs when you plug your phone into the test

jack, the problem is in our outside telephone lines. Call our Repair Service Center toll-free for assistance.

Now when you dial Directory Assistance and hear your requested number, just stay on the line and we'll place your call directly for a small charge. No need to hang up and call again.

In most areas, Directory Assistance Call Completion is a service that provides customers the option of having their local or intraLATA eligible calls automatically completed when they request a telephone listing from the Directory Assistance Operator.* The call may be completed automatically or by the Directory Assistance Operator.

The DA CL COMP portion of the call may either be billed in the same manner as the DA portion or alternately billed by using a telecommunications company calling card, billing to a third number, or collect.

Where facilities permit, DA CL COMP will be offered to all classes of service except from Public, Semi-Public, Private Pay Stations, and hotel guests.

Three types of DA CL COMP service are offered:

Fully automated - The customer receives the requested directory number from an automated voice system. The customer accepts DA CL COMP by pressing "1" from a touch-tone telephone when prompted by the DA CL COMP announcement.

Semi-automated - The customer receives the requested directory number and then requests the Operator to provide Call Completion to the requested number.

Person-to-Person - The customer receives the requested directory number and then requests the Operator to complete the call to a specified person.

**Only those calls within the Southwestern Bell serving area are eligible for Call Completion.*

Operator Assistance

Our Southwestern Bell Operators are available 24 hours a day, 365 days a year, to help you with your long-distance and local calling needs. They can be reached by simply dialing 0. (*Charges may apply.*)

See page 71 of this "Connections" Guide for a map of Southwestern Bell long-distance service areas

Types of Operator Assisted Calls

Collect Calls

You may call collect if the person or firm you are calling agrees to pay the charges. Dial 0 + the area code + the desired number. Your call will be processed through our automated call system. Or, if you prefer an Operator, simply press 0 (zero) any time during the call or ignore the recording and a courteous Operator will give you personalized service.

Calling Card Calls

For convenience in placing calls while away from your home or place of business, you may bill the charges to your SWB Calling Card.

Simply dial 0 + the area code + the desired number. If you are calling from a touch-tone telephone, key your card number when you hear the prompt tone. Or, when the Operator answers, give your calling card number.

If you do not already have a SWB Calling Card, call your local Business Office Service Center or dial "0" and order one today.

Third-Number-Billed Call

You can make a long distance call from another telephone and bill it to your own telephone number or another number if that party agrees to pay for the call.

Dial 0 + the area code + the desired telephone number. Your call will be processed

through our automated call system. Or, if you prefer an Operator, simply press "zero" any time during the call or ignore the recording and a courteous Operator will give you personalized

service. The equipment will automatically check the billing to verify that no restrictions apply. If the number is restricted, the equipment will not permit the call to be processed.

When making a third number call from a public (coin or coinless) telephone, verification of the third number being charged must be made by calling the third number and confirming that the charges will be accepted. If there is no confirmation, the call cannot be completed unless you make other billing arrangements.

Time and Charges

When placing a long distance call, you may ask the Operator to tell you the length of time you talked and how much it cost. Dial 0 + the area code + the desired telephone number. When the Operator comes on the line, say

that you want time and charges when the call is completed. You must remain on the line at the end of the call to receive the time and charges quotation.

Verify Busy and Interrupt

When you encounter a busy signal, you can have the Operator verify the line to determine if there is conversation. You are charged for the service whether or not conversation is detected. The current charge is \$1.35.

If there is conversation, you can request the line be interrupted. The Operator will interrupt the line and determine if the speaking customers are willing to terminate their conversation. The charge for interrupt service applies whether or not the existing call is terminated. The current charge is \$2.20.

When both Verify Busy and Interrupt are provided on the same call, only the Interrupt charge applies.

Operator Assistance

Types of Operator-Assisted Calls (continued)

Person-To-Person Calls

This is the most expensive type of long-distance call. Call person-to-person when you wish to speak to a particular person or extension number. Dial 0 + the area code + the desired telephone number. When the Operator comes on the line, say you are placing a person-to-person call and give the name of the person you wish to talk to. The Operator will leave the line when the person you are calling has answered the telephone.

Mobile Calls

You can make local and long-distance calls to motor vehicles equipped with telephones.

Vehicles traveling within their city of registration may be dialed direct by dialing 1 + the telephone number. Vehicles traveling outside their city of registration (*roamers*) can only be reached through the Mobile Operator for the desired area.

Dial the Operator and ask for the Mobile Operator in the desired city.

Cellular Calls

You can make local and long-distance calls to motor vehicles equipped with cellular phones. However, since cellular companies operate differently, dialing instructions should be provided by the company providing service to the party you're trying to reach.

Conference Calls

You can talk with several people in different places at the same time by making a conference call. For a conference call within your Southwestern Bell service area, dial "0" and an Operator will assist you in reaching a Conference Operator. For a conference call outside your Southwestern Bell long-distance service area, you will need to contact a conference call provider.

Operator Assistance

Reaching the Right Operator

Southwestern Bell provides Operator assistance for all local and long-distance calls placed within a Southwestern Bell service area. (See *Southwestern Bell Service area map on page 71.*)

Dialing 0 + Area Code + the telephone number is still the most convenient way to obtain assistance with collect, calling card, third number billed and person-to-person calls. 0 + dialing for these types of services, automatically connects you with the appropriate Operator.

When to Dial "0":

- To verify that a number you are trying to reach within your Southwestern Bell service area is busy. (A *service charge applies.*)
- To interrupt a call within your Southwestern Bell service area. (A *service charge applies.*)
- To reach an Operator for assistance in reaching an emergency agency.

- To obtain credit when you have experienced trouble for a long distance call placed inside your Southwestern Bell long-distance service area.

- To obtain assistance with a call from a Southwestern Bell coin telephone. (A *service charge may apply.*)

- To place an order for a Southwestern Bell Calling Card.

When to Dial "00":

If your long distance company provides Operator services, dial "00":

- To obtain credit when you have experienced trouble for a call placed to another long-distance service area.
- If you are having trouble dialing a call outside the shaded area on the map. (See *page 71.*)
- If you need dialing instructions for calling overseas or Mexico.

*If you are unsure whether you need to dial "0" or "00", dial "0" and a Southwestern Bell Operator will be glad to assist you in placing your call.

Operator Assistance

Public Phone Calling

A number of long-distance companies now offer service for long-distance calls made from Southwestern Bell pay telephones to numbers outside the Southwestern Bell service area.

The way you dial calls from Southwestern Bell pay phones remains the same. This change simply allows other long distance companies to provide service through Southwestern Bell pay phones. However, you should be aware that the rates charged by long distance companies for service may vary.

This change involves only those pay phones owned by Southwestern Bell.

Calls dialed within Southwestern Bell's service area will still be processed by Southwestern Bell.

Calls dialed to cities outside Southwestern Bell's service area will be routed automatically to the long distance company serving the pay phone that you are using. The name of the long distance company will be posted on the pay phone.

If you dial 0+, the Operator who answers your call should identify the name of the long distance company that you wish to handle your call. If you have any questions about rates and billing, you should ask the long distance Operator before placing the call.

Of course, if you need assistance, you may still reach a Southwestern Bell Operator by dialing "0".

Area Code Map

Automated Alternative Billing Service

Would you like to make collect or third-number billed Southwestern Bell* long-distance calls without operator assistance?

You can! Texas customers can use the Automated Alternative Billing Service from any home, business, mobile or Southwestern Bell Coin telephone for calls within your Southwestern Bell* long-distance calling area.

Simply dial "zero" followed by the area code and telephone number. A recording will walk you through the steps required to place and bill the call.

Just dial "0" + Area Code + seven-digit telephone number.

If you want to speak with an Operator, dial "0" any time during the call, or ignore the recording. A helpful, courteous Operator will give you personalized service

* A map showing the Southwestern Bell long-distance calling areas can be found on page 71.

Operator Service Charges

The initial period for a long distance Operator-assisted call is one minute. The initial period is billed at the direct-dial rate plus a service charge (*see chart on the next page*). Additional minutes are billed at direct-dial rates and include the same discount applicable to the time period when you call. Discounts do not apply to service charges. Local Operator-assisted calls are billed on an occurrence basis. For example, if you place a local collect call, you are only charged the service charge applicable for Operator Assistance.

To place a local Operator-assisted call, dial "0" and tell the Operator what you need. (A service charge may apply.)

Need Further Assistance?

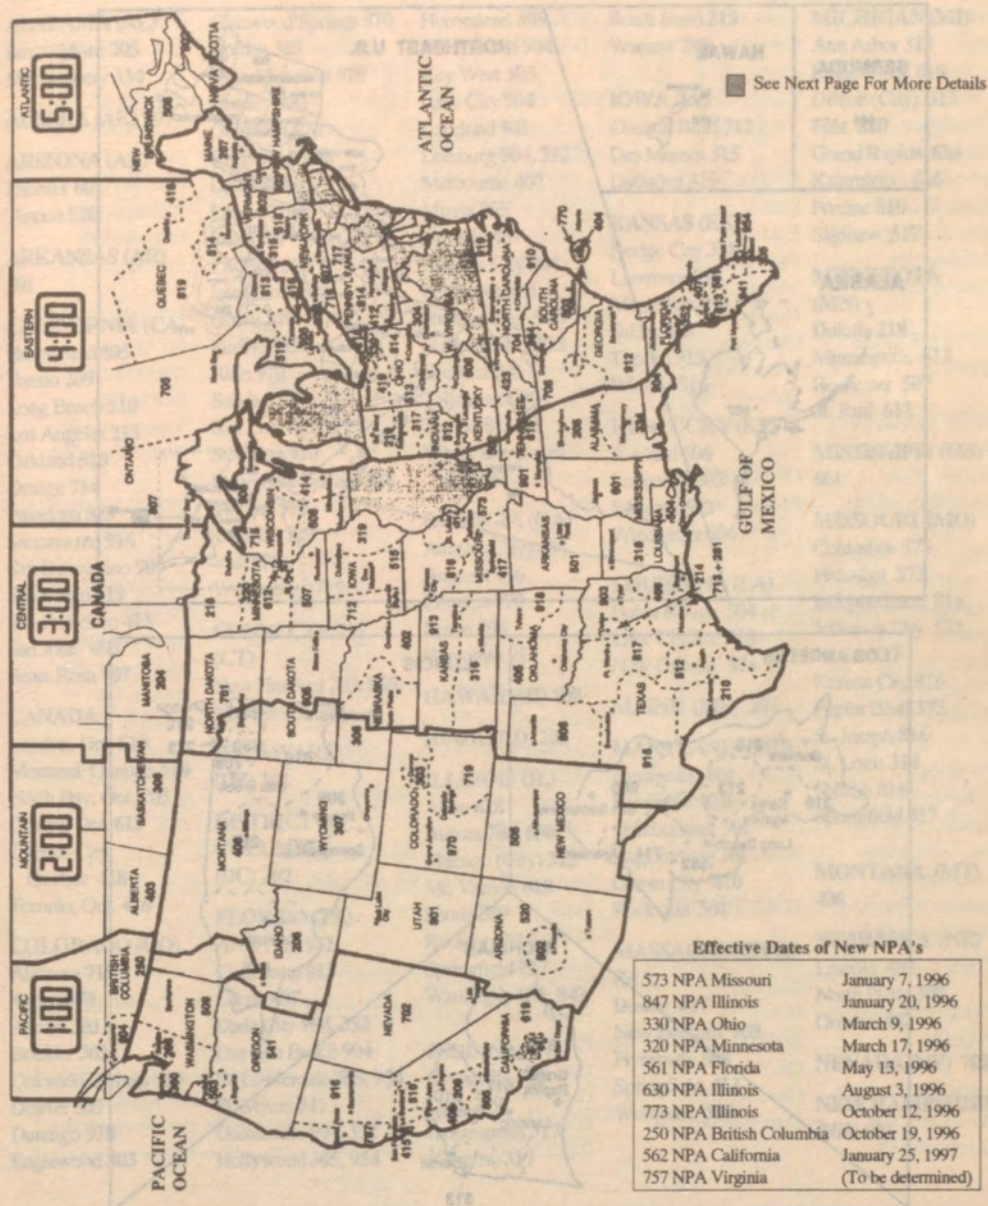

If you have trouble dialing direct long distance service and reach a wrong number, poor connection or cut off, hang up and dial the Operator right away. Explain to the Operator what happened so that arrangements are made for proper credit. The faster the problem is reported, the easier it will be to give you credit. If you are using another company's long distance service, follow the instructions they have provided you.

HOME-800SM

HOME 800SM SERVICE

**A low-cost way to stay
within easy reach**

Now, when your friends or family members are short on change or would rather not call collect, they can still get through on your Home 800 number. There's no special equipment or extra phone lines needed. And the number is yours, even if you move.

Home 800 calls cost considerably less than collect or calling card calls.

If you receive more regional long-distance calls during off-peak times (5 p.m. to 8 a.m., Monday through Friday and weekends), you may want to consider buying a block of 60 minutes or 120 minutes.

Or if you prefer, you can choose to pay for calls by the minute (*usage*) rather than by the block.

To order this service, contact your service representative. See the "How To Reach Us" pages at the front of this "Connections" Guide for the telephone numbers to call.

NOTE: Home 800 service applies only to calls received from within your Southwestern Bell Regional Calling Area.

Long-Distance Calling

Direct-Dialed Long-Distance

Direct-dial calls are those completed from a residence or business phone without Operator assistance. The initial rate period is one minute any time of day or night. Charges are based upon rates in effect at the time the call is placed and will change if the call continues into the next time period.

All long distance calls dialed within the Southwestern Bell service area must include an area code - even when calling within the same area.

To place a direct-dial call, dial:

1 + Area Code + seven-digit telephone number.

To place a Calling Card® call, dial:

0 + Area Code + desired phone number.

When the Operator comes on the line, say you're placing a Calling Card call and give your card number.

To place a Calling Card call, from touch-tone phones only, dial:

0 + Area Code + desired phone number (wait for prompt tone) + card number.

Only enter the last four digits of your card number, if calling the number to which your card is billed.

Sequence Calling Saves Time

If you are using a touch-tone phone, you don't have to hang up between calls to make more than one Calling Card call terminating within your Southwestern Bell service area. Just press the "#" sign and dial another telephone number (including the area code.) After the first call, each call in sequence will be billed to your Calling Card number. You may obtain a Southwestern Bell Calling Card from your telephone Service Center at:
1-800-464-7928.

Long-Distance Calling

Assistance with Direct Dialing

If you are placing a call inside a Southwestern Bell long-distance service area and get a wrong number, bad connection or cut off, immediately call your Southwestern Bell Operator (*just press 0*) to explain what happened. Our Operator can arrange for you to get proper credit. (*The quicker the problem is reported, the easier it will be to issue your credit.*)

If you place a call outside a Southwestern Bell long-distance service area and have a problem, dial 00 for Operator assistance or refer to the operator assistance instructions provided by the long-distance company you are using.

International Calls

If you have selected a company to provide your international long-distance service, please follow the dialing instructions they have provided you.

If you have not selected an international long-distance company, these instructions may help you complete your international call. (*Additional charges may apply.*)

To place a direct-dialed international call in areas where 1 + "Easy Access" dialing is available:

Dial 011 + country code + city code + local number

(*See page 72 in this "Connections" Guide for more details on 1 + "Easy Access" dialing.*)

To place an operator-assisted international call:

Dial 01 + country code + city code + local number

Tip: After dialing any international call, please allow at least 45 seconds for the ringing to begin.

To get international country and city codes, phone numbers, or to call countries that cannot be dialed direct:

Contact your international long-distance company.
(*Charges may apply.*)

Long-Distance Calling

Long-Distance Rates

Any service charge for Operator Assistance is in addition to long-distance rates.

These rates do not apply to international calling or to calls placed through long-distance carriers.

Examples shown do not include taxes. Additional minute rates illustrated are approximations due to rounding. Charges are based on rates in effect at the point where the call originates. When a call is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the call occurring within that rate period.

1+ "Easy Access" Dialing

Easy Access Dialing may not be immediately available to everyone. In addition, not all long distance companies will choose to provide this service.

If Easy Access Dialing is not available in your area, in order to use other long distance companies, you may be required to dial an access code plus an authorization code in addition to the number you are calling.

If you have contracted with a company to provide you with long distance calling services, follow the dialing instructions they have provided you.

Easy Access Dialing may be available in your area. With Easy Access Dialing, you choose one long distance company through which you can make 1+ (or 0+)* calls outside your service area. To use Easy Access Dialing, you simply dial: **1(or 0) + (Area Code, if required) + phone number.**

Contact the participating long distance company of your choice to subscribe to Easy Access Dialing.

There's no charge for your initial Easy Access Dialing selection if you make your choice within six months after the service becomes available to you.

You can also use other long distance companies by dialing:
5-digit access code + 1 (or 0)* + (Area Code, if required) + phone number.

You will need to establish an account with each long distance company you wish to use. Each company will provide you with their five-digit access code.

***Not all long distance companies will choose to offer operator service. Contact your carrier to discuss your operator service options.**

Information Delivery Services

Selecting A Long-Distance Company

You now have many choices when it comes to selecting a long distance company. Basically, Southwestern Bell handles the long distance calls within your service area.

When your calls cross service area boundaries, other long distance companies handle the calls. Here's what to look for when you're selecting your long distance company:

- Does the company charge for individual calls by blocks of time? By the minute? By portions of a minute?
- Does the company begin charging for the call when it's answered or when it starts ringing?
- Do you get credit for bad connections or wrong numbers?
- How and when will you be billed? Are charges itemized? Can you be billed through major credit card accounts?
- Does the company offer service 24 hours a day or only during specified times?
- Can you call anywhere or is the company's service available only when calling certain areas or locations?
- What are the company's rates? Are there monthly fees? Initial charges? A minimum monthly charge? Per-call charges?
- Does the company offer discount rate periods? What are the rates for the time periods and places you call often?

Information Delivery Services

Calls To 900/976 Numbers Will Result In A Charge Per Call

A number of entertainment and informational programs offered by information providers ("*sponsors*") are available on telephone numbers that begin with 900/976. There is a charge for such calls. The amount of the charge for each call to a 900/976 service is determined by the sponsor and can vary among individual 900/976 programs. The charge for a 900/976 program must be clearly stated as part of the 900/976 message.

Any advertisement promoting 900/976 service must clearly state the charge for the call.

Programs offered by 900/976 sponsors are recorded only (*no "live" two-way conversations*). The content of 900/976 programs is developed and produced by the sponsor and not by the telephone company. **But Southwestern Bell can refuse to allow unsuitable programs or language on its 900/976 network.**

Important Billing Information About 900/976 Service Charges

Charges for calls placed to 976 numbers will appear on the customer's monthly Southwestern Bell bill. Charges for calls placed to 900 numbers may appear on the customer's monthly Southwestern Bell Telephone bill. The customer is obligated to pay such charges. **A customer's local telephone service cannot, however, be suspended or disconnected for non-payment of 900/976 charges.**

Unpaid 900/976 charges will cease to appear on the customer's telephone bill if unpaid for more than 60 days. At the sponsor's request, Southwestern Bell will provide the nonpaying customer's name, address and telephone number and other pertinent information to the sponsor for use in collection efforts. Sponsors may refer such nonpaying accounts to collection agencies.

Billing Questions? Call Your Service Center

For billing questions regarding 900/976 service, please call your local Southwestern Bell Service Center. Residence and business customers should

refer to the "How to Reach Us" pages at the front of this "Connections" Guide for information on how to contact Southwestern Bell Service Center.

Your Rights As A Customer

Calls To 900/976 Numbers Can Be Blocked; No Charge

If calls to Dial 900/976 programs are a problem due to unwanted charges, or if a customer wishes to avoid the potential of uncontrolled usage, customers may request 900/976 Call

Restriction, which is free, and the telephone company will block access to all 900/976 numbers.

Calls to 900/976 services cannot be blocked separately. When access is blocked to one service, the other is automatically blocked also. Some customer's telephone numbers do not have access to

900 and 976 calls at all. To request the free blocking service, call your local Southwestern Bell Service Center. Some restrictions do apply.

In addition to the free blocking service, Southwestern Bell can require mandatory blocking of 900/976 programs for nonpayment of charges incurred by a customer. There is a one-time charge to the customer when mandatory blocking is required.

Toll-Free Number Available For Questions Or Complaints About 976

Southwestern Bell has established a toll-free number, **1 + 800 + 446-0143**, for customer comments, questions and complaints that

are specific to 976 information programs. Additional information about customer rights regarding 976 service is also available by calling the toll-free number.

Before Dialing 900/800 Numbers, Please Note

When an 800 or 900 number is dialed from your telephone, your telephone number may be transmitted to the company you

have called and may be available to that company's service representative before your call is answered.

You will not be required to pay more than 1/3 of the total deferred amount when entering into a deferred payment plan. If you do not meet the terms of a deferred payment plan, your service may be terminated after proper written notice.

Southwestern Bell is not required to enter into a deferred payment plan with any customer who has had telephone service for three months or less if that customer is lacking sufficient credit or a satisfactory history of payment for previous service. Please call your service representative for more information on this plan. If the representative does not offer such a plan to you, you have the right to request these alternative payment plans.

Credit And Deposit Information

A deposit may be required if you have not established credit for telephone service within the last two years or if you have paid your bill late more than once during the last 12 month period.

Deposits are equivalent to a two month bill for a particular customer (*averaged over a 12 month period*). Interest will be paid on any deposit held over 30 days at a rate set annually by the Public Utility Commission of Texas. This rate is effective January 1 of each year.

Accrued interest will be credited to your account annually. This deposit will be credited to your account if you are and have been paying your bill in a timely manner for the prescribed time period*. The deposit shall cease to draw interest on the day it is returned or credited to your account.

Información Importante

Sus Derechos Como Cliente Y Propietario De Información En El Sistema De Red Telefónica

En las actividades diarias para ofrecerle servicio telefónico, Southwestern Bell Telephone mantiene cierta información sobre su cuenta. Cuando esta información se iguala con su nombre, dirección y número telefónico donde se origina la llamada, se le conoce como información específica del cliente - "Cliente Propietario de Información en el Sistema de Red Telefónica" (Customer Proprietary Network Information) o CPNI como abreviatura. Algunos ejemplos de esta información incluyen el tipo de línea que usted utiliza, las características técnicas (como servicio digital/Touchtone o servicio para teléfono de disco), tipo de servicio, cargos telefónicos actuales, consumo en servicio local y de larga distancia, cargos por servicio de información, información de consumo y patrón de llamadas.

Southwestern Bell puede estar utilizando su CPNI para mercadear varios de nuestros servicios a usted. Sin embargo, la Comisión de Servicios Públicos de Texas ha adoptado nuevos reglamentos en los que se

especifica que Southwestern Bell no puede utilizar su CPNI para mercadearle ciertos servicios o funciones, si usted ha pedido que su CPNI no sea considerado para este tipo de actividades. Estos servicios o funciones son aquellas que pueden serle ofrecidas por otras fuentes diferentes a las de Southwestern Bell.

Si usted desea restringir el uso de su CPNI, llame gratis al centro de servicio residencial de Southwestern Bell al 1-800-464-7928, de lunes a viernes durante horas de oficina. Simplemente diga a su representante de servicio que usted desea restringir a Southwestern Bell el uso de su CPNI. No habrá cargos por restringir su información como cliente y la restricción continuará hasta que usted nos notifique lo contrario.

Por favor, note que al restringir su información como cliente, no se eliminara toda la comunicación de mercadeo que tenemos con usted. Usted puede recibir algún contacto de

ventas que no se han originado en base a la información de su CPNI. Además, se nos ha permitido ponernos en contacto con usted en base a la información de su CPNI, para informarle sobre servicios telefónicos que no son proporcionados por otra fuente.

Finalmente, cuando usted lo solicite, aunque su CPNI esté restringido, se nos ha permitido utilizarlo para mercadear servicios y funciones telefónicas que no le pueden ser proporcionadas por alguna otra fuente diferente a Southwestern Bell.

Solicitaciones por Teléfono

La ley de Texas provee cierta protección a personas que reciben solicitudes telefónicas en su casa.

Un solicitador telefónico debe:

- Identificarse con su nombre
- Identificar el propósito de la llamada
- Identificar al negocio del cual está llamando
- Identificar el número telefónico por medio del cual el vendedor, organización o compañía, pueden ser localizados.

Un solicitador telefónico no debe llamar a su residencia antes de la 9 a.m. ni después de las 9 p.m., de lunes a sábado; o antes del medio día o después de las 9 p.m. en domingo.

Si un solicitador telefónico utiliza marcador automático/aparato con mensaje automático la máquina debe ser desconectada de su línea en un período de 30 segundos, después de terminar la llamada.

Información Importante

Excepciones

Los requisitos mencionados, no se aplican a solicitudes telefónicas hechas bajo su petición o en conexión con alguna deuda existente, o llamadas de algún vendedor con el cual usted tuvo trato comercial.

Si usted utiliza su tarjeta de crédito para comprar productos o servicios ofrecidos por un solicitador que no sea de alguna organización de caridad pública [organización exenta de impuestos federales bajo el código fiscal §501 (c) (3)], el vendedor debe:

- Ofrecer reembolso completo por el retorno de un producto que no ha sido dañado o usado, en un período de 7 días después de haberlo recibido (el vendedor debe procesar el reembolso durante un período de 30 días, después de que usted haya regresado o cancelado la mercancía); o

- Entregarle un contrato por escrito, describiendo completamente los productos y servicios ofrecidos, el precio total a pagar, el nombre, dirección y número telefónico del negocio del vendedor, al igual que los términos o condiciones que afectan tal venta.

Grabación de una Conversación Entre Dos Personas

Si su conversación es grabada, es porque existe alguna de las condiciones siguientes:

1a. Todas las personas que estén siendo grabadas podrán escuchar un sonido de grabadora, aproximadamente cada quince segundos; o todas las personas que tomen parte en la conversación

deben dar su consentimiento por adelantado para que la conversación sea grabada.

1b. Este permiso por adelantado debe ser por escrito o ser parte del aviso informativo al principio de la grabación; o

Important Information

2. A falta del punto 1b, la persona que graba puede dar una autorización verbal, hecha en forma clara y sin dudar, ésta debe ser grabada al principio y como parte de la llamada. Existen limitaciones y excepciones en ciertos casos de lo antes mencionado. Por ejemplo: Personas con licencia de transmisión comercial, sistemas de reportes de emergencia y autoridades encargadas de hacer cumplir las leyes.

Deje su Teléfono Colgado

Habrán ocasiones en que usted no desea ser molestado por el sonido del teléfono, sin embargo, al dejarlo descolgado evita que pueda recibir una llamada de emergencia y bloquea el equipo necesario para completar las llamadas de otros usuarios.

Important Information

Customer Provided Equipment

Under the Federal Communications Commission's (FCC) Registration Program you supply your own telephone equipment and connect it directly to the local network.

You are responsible for the connection, operation, maintenance and repair of this equipment and should arrange for these services through the manufacturer if needed. This equipment cannot be connected to a coin telephone. If you have a party line, contact your service representative.

Recording Of Two-Way Telephone Conversations

If your telephone conversation is being recorded, one of the following conditions must exist:

- 1a. All parties being recorded must hear a beep or distinctive recorder tone approximately every fifteen seconds, or all

parties to the telephone conversation must give their prior consent to the recording of the conversation.

- 1b. The prior consent must be obtained in writing or be part of and obtained at the start of the recording, or
2. In lieu of 1b, the recording party can give verbal notification in a clear, unambiguous manner, which is recorded at the beginning and as a part of the call.

Under certain restrictions, exemptions to these provisions exist for commercial broadcast licensees, emergency reporting systems and law enforcement authorities.

Leave Phones On The Hook

At times you may not want to be disturbed by a ringing phone. However, leaving a phone off the hook prevents emergency calls from getting through and ties up equipment needed to complete other customers' calls.

Your Customer Proprietary Network Information Rights

In the normal course of providing your telephone service, Southwestern Bell maintains certain information about your account. This information, when matched to your name, address and calling or originating billing telephone number, is known as your customer-specific "Customer Proprietary Network Information," or CPNI for short. Examples include the type of line you have, technical characteristics (*like Touchtone or rotary service*), class of service, current telephone charges, long distance and local service billing records, directory assistance charges, usage data and calling patterns.

Southwestern Bell currently may use your CPNI to market our services to you. However, the Public Utility Commission of Texas has adopted new rules stating that Southwestern Bell may *not* use your customer-specific CPNI to market certain telephone services or features to you if you have requested that the CPNI be considered

"restricted" for this purpose. These telephone services or features are those that may be available to you from a source other than Southwestern Bell.

If you wish to have your customer-specific CPNI considered "restricted," please call your Southwestern Bell Residence Service Center at 1-800-464-7928 during weekday business hours. Simply tell your service representative that you wish to restrict our use of your customer-specific CPNI. There will be *no charge* for restricting your customer information, and the restriction will remain in effect until you notify us otherwise.

Please note that restricting your customer information will not eliminate *all* of our marketing communications with you. You could still receive marketing contacts from us that are not based on your customer-specific CPNI. Additionally, we are permitted to use your customer-specific CPNI to contact you regarding

Important Information

telephone services we offer that are not available to you from another source. Finally, even if your CPNI is restricted we may still use it to market those telephone services or features that may be available to you from a source other than Southwestern Bell if you contact us and inquire about them.

Telephone Solicitation

Texas law provides certain protections for a person who receives a telephone solicitation at a residence.

A telephone solicitor must:

- identify himself or herself by name
- identify the business on whose behalf he or she is calling
- identify the purpose of the call
- identify the telephone number at which the person, company or organization making the call may be reached.

A telephone solicitor may not call a residence before 9 a.m. or after 9 p.m. on a weekday or Saturday or before noon or after 9 p.m. on Sunday.

If a telephone solicitor uses

an automatic dialing/announcing device, the machine must disconnect from your line within 30 seconds after termination of the call.

Exceptions

The requirements above do not apply to telephone solicitations made at your request, or solicitations made in connection with an existing debt or contract, or calls from a telephone solicitor with whom you have a prior or existing business relationship.

If you use a credit card to purchase a good or service from a telephone solicitor other than a public charity (*an organization exempt from federal income tax under the Internal Revenue Code §501(c)(3)*), the seller must:

- offer a full refund for the return of undamaged and

Steps to Help Your Responsibilities

unused goods within seven days after you receive the goods or service (*the seller must process the refund within 30 days after you return the merchandise or cancel your order for undelivered goods or services*); or

provide you with a written contract fully describing the goods or services being offered, the total price charged, the name, address, and business phone of the seller, and any terms and conditions affecting the sale.

Complaints

The Texas Attorney General investigates complaints relating to a violation of this law, which is found at the Business and Commerce Code Chapter 37. If you have a complaint about a telephone solicitor whom you believe has violated this law, contact:

**Consumer Protection Division
Office of the Attorney General
of Texas**

P O Box 12548
Austin, Texas 78711
(512) 463-2070

Another law, found at §3.659 and §3.660 of the Public Utility Regulatory Act of 1995, requires a telephone solicitor to make every effort not to call a consumer who asks not to be called again. Complaints relating to a violation of this law are investigated by the Public Utility Commission of Texas.

If you have a complaint about repeated solicitation from a telephone solicitor you have asked not to call you again, contact:

**Office of Consumer Affairs,
Public Utility Commission
of Texas**

7800 Shoal Creek Blvd.
Austin, Texas 78757
(512) 458-0256 or
(512) 458-0221 teletype-
writer for the deaf.

Be advised that you may have additional rights under federal law. Please contact the Federal Trade Commission or the Federal Communications Commission for further information on these additional rights.

Your Responsibilities

Your phone service carries with it certain responsibilities which benefit both you and your family, as well as others.

Yielding a Party Line in An Emergency

Texas law requires you to yield a party line immediately when told the line is needed for any emergency. It is also unlawful to take over a party

line by falsely stating the line is needed for an emergency. The penalty for either offense carries a fine of up to \$500 or imprisonment, or both.

Fraudulent Charges

It is illegal to charge any calls to another person's telephone number or Southwestern Bell calling card without his/her permission.

Persons placing such calls are subject to prosecution, and, if convicted, are subject to a fine and/or imprisonment.

Harassing Calls

State and federal laws make it a crime to place obscene or harassing phone calls.

The penalty is a fine and/or imprisonment.

Unlawful Wiretapping

It is a crime under federal and state laws to wiretap or otherwise intercept a telephone call unless the consent of one or both of the parties actually participating in the call has been obtained.

(The exceptions are properly authorized law enforcement offices, acting under court order, according to state and federal law.) The penalty for illegal wiretapping can be a fine and/or imprisonment.

Helpful Facts

Because your safety and well-being are important to us, there are certain things you should know.

Every one of our Southwestern Bell employees is required to carry an identification card with his/her name and photograph. If you have any doubt that a person is one of our employees, just ask to see his/her identification card.

Phone Safety Tips

Your telephone is one of the safest appliances in your home or office. All the same, there are a few precautions you can take:

- Don't use your phone while in the bathtub, shower or swimming pool. A phone dropped in water could cause an electric shock.
- We use protective measures to limit electrical surges from entering your home, but absolute lightning

protection is impossible. So, avoid using the telephone during electrical storms. Make urgent calls brief.

- If you suspect a gas leak, report it at once, using a telephone away from the area in question. A phone's electrical contacts can create tiny sparks when you dial that, although unlikely, could ignite heavy gas concentrations.

Obscene Or Annoying Calls

We hope it doesn't happen. But if you should receive obscene, abusive or threatening calls, here are some guidelines to follow:

- Just remember, you control your phone, not the caller. So, hang up at the first obscene word. Also, hang up if the caller remains silent after the second time you say hello.
- Don't give your name or address until the caller has been properly

identified.

- Advise your children or guests not to give out any information about who is at home when you are away. Simply ask the caller to leave a message or to call back.
- If unwanted calls persist, call your Southwestern Bell Service Center toll-free at 1-800-464-7928 (*Residence*), or 1-800-499-7928 (*Business*).

There's A Message In All Of This.

Get Your Teenagers Their Own Phone Line.

Someone's got your number. It's Bob, Peggy, Gary, Kelly, Tim, Cindy, Shawn and all the kids who leave urgent phone messages for your teenagers. Day in and day out. Messages which take you away from what you're doing when your kids aren't around to take their own calls. Sound familiar?

Then give your teenagers their own phone line, with their own private number, from Southwestern Bell Telephone. That way they'll take

more responsibility for their calls. You won't have to take any more of their messages. And everyone takes care of their own business.

Stop running an answering service for your teenagers. Call to order a second phone line or receive a free brochure. You'll find our message very easy to take.

FREQUENTLY CALLED NUMBERS

[illegible]

We Got The Idea For Our Calling Services By Accident.

You never know when something is going to happen, but isn't it nice to know you're prepared for any emergency?

With Call Waiting and Call Forwarding, emergency calls can reach you easier, whether you're on your phone or even away from home. Speed Calling helps you dial important numbers, including your doctor, quickly and efficiently. And you can even speak with your doctor

and a sick loved one at the same time with the help of Three-Way Calling.

Call today to get all of these services, just one or two, or to ask for additional information. Because when there is an emergency or accident, no news isn't necessarily good news.

Call 1-800-234-BELL.

WARNING-EMERGENCY CALLS ON PARTY LINES

It is unlawful to refuse the use of a party line to another person for the purpose of permitting such person to report a fire or summon police, medical aid or ambulance service in an emergency situation where property or human life is in danger. It is also unlawful for anyone to falsely claim an emergency to gain access to a party line. The maximum penalty, upon conviction, is imprisonment for 30 days or a fine of \$500 or both.

DIALING INSTRUCTIONS

FOR PARTY LINE USERS—Always listen to make sure the line is not in use before you attempt to dial.

HOW TO CALL ANOTHER PARTY ON YOUR LINE—Dial the directory number then you will hear a recording that the number you have dialed is on your line. Please hang up your receiver and allow time for your called party's telephone to ring. Then pick up your receiver to converse.

PARTY LINE COURTESY PAYS—When several persons are sharing the use of a telephone line, consideration and courtesy are important to all. Everyone will receive better service if each subscriber on the line will observe these simple rules of courtesy. Be as brief as possible...space your calls so that the other party can place calls...and give up the line to the neighbor who needs it for an emergency use.

HUTTO CUSTOMERS MAY CALL THE TAYLOR EXCHANGE BY DIALING THE 7 DIGIT TAYLOR NUMBER.

HUTTO CUSTOMERS WHO SUBSCRIBE TO OPTIONAL EXTENDED METROPOLITAN SERVICE (EMS) CAN PLACE TOLL FREE CALLS TO THE AUSTIN METROPOLITAN AREA.

SelectCard®

 Southwestern Bell
Telephone

DIAL 0 • THE # YOU'RE CALLING • YOUR HOME • AND THIS 4 DIGIT PIN

INDA CRAIG

A SelectCard® Calling Card Keeps You Connected.

There's one card you can't afford to be without. Your Southwestern Bell Telephone SelectCard® calling card. Whether it's business or pleasure, use it often to stay in touch.

It's fast and easy. Forget fumbling for change, calling collect or making third-number-billed calls. Just use your SelectCard. No more access codes. Your SelectCard number is your area code, home phone number and a four-digit PIN that you can choose yourself. Just dial "0" and the number you want to call.

Whether you're calling across town or around the world, from whatever phone, over whichever major long-distance carrier you choose, it's easy with SelectCard.

And the best part is the SelectCard is FREE. Charges apply only when you use it. With a SelectCard calling card from Southwestern Bell Telephone, you can place local and long-

distance calls, use Directory Assistance or make operator-assisted calls, and have them charged automatically to your monthly phone bill.

Make It Easy To Keep In Touch.

If you have children, parents or others you'd like to have call you more often, give them a "Keep In Touch" SelectCard. Across town or across the country they'll always be able to call you (and only you) even if they don't have any change. These calls will appear on your telephone bill.

Save time. Avoid the hassles. And always stay in touch. Call 1-800-234-BELL or your Southwestern Bell business office and ask for your own SelectCard calling card today.
