Dedication

We, the 1955 MALLARD staff, dedicate this edition of the annual to the FUTURE with the sincere hope that success and happiness may come to all who pass through the portals of Taylor High.

Board of Education

Far-reaching accomplishments were made by the Taylor Board of Education this year. But the one that Taylor townspeople and students will remember is the extensive building program which began in April. This will include a new elementary school building, junior high classrooms, and the remodeling of various departments of the school system.

DON SMITH

I am happy to have the opportunity to express thanks and appreciation to the student body and faculty for helping to improve, better, and for making our school more outstanding each year. It is my hope also that in the future you may be able to look back on your school days as the brightest and happiest of your life.

I wish all of you happiness and success all through life.

T. H. Johnson
Superintendent of Schools

Dear Students:

Secondary education has many faces and many sides in the Twentieth Century. When all phases are pulled together, you have a composite picture of The American High School. And that is what Taylor High is--a typical American High School.

Only through such media as The Mallard can a person clearly see that composite. The value of this book is that ten students can look at the same picture and remember ten different things.

The older this book becomes, the more meaningful it will be to you. And that, of course, will be the pattern of your life: The older you become, the more service you will have rendered.

Very truly yours,

TAYLOR HIGH SONG

How we honor our own Taylor High

We will send forth her praise to the sky.

All our friendships forever will last;

The memories of Taylor High will never be surpassed.

Soon we'll take the walks of life

And begin our daily strife,

But forever we'll remember Taylor High.

For we know that in each of our hearts

The Green and White shall ever fly.
